

Assembly Instructions

Jorgenson Ball Storage Gladiator Lockers

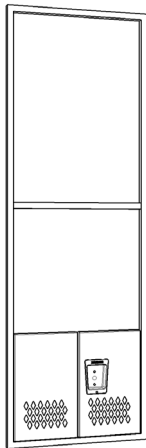

1

Identify Parts

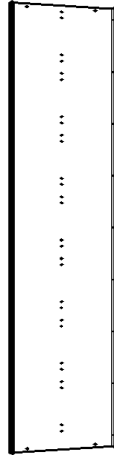

Remove unassembled locker parts from the packaging. Next, locate and identify each part based on the images show below:

TIP: Tip: Ensure that the bolts are installed on the outside of locker and nuts are secured on the inside of the locker.

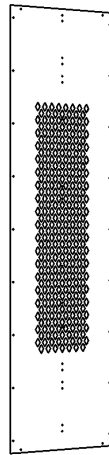

(1) Front Frame

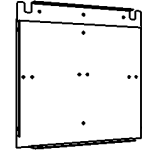

(1) Back Panel

(2) Side Panels

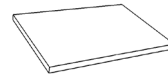

(2) Top/Bottom Panels

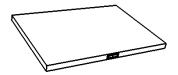

(1) Ball Storage Cord

(1) Bottom Shelf

(1) Top Shelf (with number plate)

2

Start Assembling

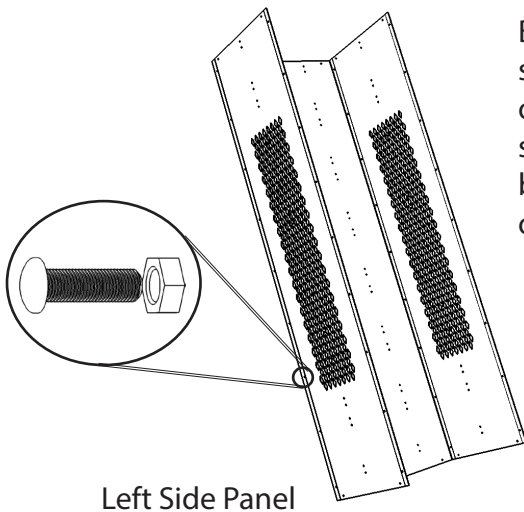

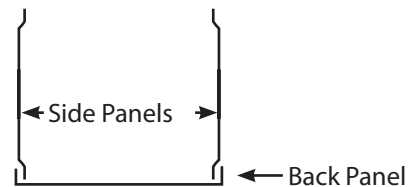

- Position the back panel on straight, even flooring or pair of saw horses.
- Gently bolt the left and right side panels to the inside of the back panel flange.

Bolt the tamper-proof screw on the inside of the locker. Only the screw heads should be visible from the outside of the locker.

Right Side Panel

View of locker with back panel flat on floor or saw horses

The left and right side panels must be placed inside the back panel flanges.

Left Side Panel

Top holes are 1/2" at the top of each panel shown.

3

Continued Assembly

- Slightly bolt the top/bottom panels and shelves inside the side and back panel.
- Proceed to bolt the front frame on the outside of the left, right and bottom panels.

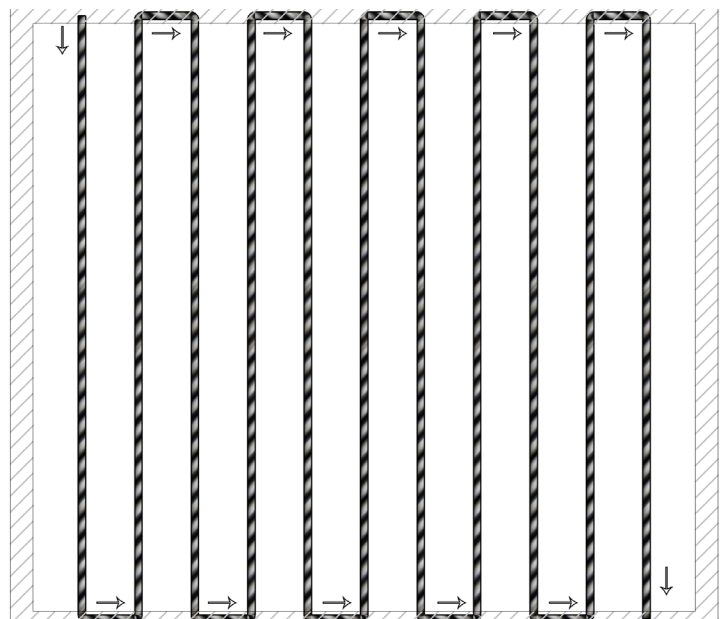

Note:

Top and bottom panels have two (2) round, pre-drilled holes that can be found on the back flange and are designed to bolt to the back panel.

4

Stringing the Cord

- Feed the cord through the hole in the top left corner.
- Weave the cord up and down through the holes, starting in the left and moving to the right (as shown by the path of the arrows).
- End on the bottom right hole.
- Tie knots on both ends of cord to secure in place.

Insert Front Door Frame

- Place locker in the upright position and make sure locker is level.
- Tighten all bolts.
- To instill proper safety measures, we highly advise anchoring the locker to the floor or wall to avoid injury or theft.
